BIG RALLY AT GYM

AGGIES MIX WITH PACIFIC U. TODAY

O. A. C. Plays First Contest of
1923 Football Season
This Afternoon

CLOSE GAME IS EXPECTED

Varsity Weakened by Injuries;
New Players Included
in Local Lineup

FOOTBALL SCHEDULE

Sept. 29—O. A. C. vs. Pacific University at Corvallis.
Oct. 6—O. A. C. vs. M. A. A. C. at Corvallis.
Oct. 13—O. A. C. vs. Alumni at Corvallis.
Oct. 20—O. A. C. vs. University of California at Berkeley.
Oct. 27—Open.
Nov. 3—O. A. C. vs. Washington at Corvallis.
Nov. 10—O. A. C. vs. Idaho at Boise.
Nov. 17—O. A. C. vs. W. S. C. at Portland.
Nov. 24—O. A. C. vs. U. of O. at Eugene.
Nov. 29—O. A. C. vs. M. A. A. C. at Portland.
Dec. 25—O. A. C. vs. University of Hawaii at Honolulu.
Jan. 1—O. A. C. vs. Hawaiian All Star at Honolulu.

The 1923 football season opens this afternoon with the Pacific University tilt. The Badgers have a strong team and a week more practice than the Aggies so the coach, R. B. Rutherford, expects a stiff workout for his men.

Last year the Beavers were only able to roll up a 3 to 0 score against the Forest Grove lads. They left declaring they would beat O. A. C. the next year and this has been their ambition since. The local lads have been handicapped by an unusual number of injuries this season so a number of regulars will be missed from the lineup today.

The brush will mark the debut of several promising players, according to the coach, with many of the squad participating. The Aggie field general will be chosen from Price, Garber, or Christianson. Gill, McCarty, or Tebb will do the booting with Gill the favorite, despite an injured leg.

A good game is expected by the dopsters and the Coach declares the team will put up a real "Beaver Fight."

NEW HANDBOOK READY

Publication Replacing Former Books
Authorized by Student Body

The new O. A. C. handbook, a combination of all the handbooks formerly published, is now being sold at the registration desks in the women's gym and the library. All students are sold a copy when registering.

The combined handbook will be published annually and will be enlarged and improved each year. Homer Roberts, editor, has received many compliments on the first edition which is now being sold.

The handbook is the result of an attempt by the student body to relieve the confusion caused by having several different editions for sale. It will replace the books published by the Y. M. C. A., Citation committee and the Women's Athletic Association, as well as the rook bible.

All freshmen will be required by the vigilance committee to fill out and carry a copy of the handbook.

The New Aggie Chief Who
Will Lead Grid Warriors

"Scotty" is the new Aggie chief and with his fight and aggressiveness should prove an incentive to the team. "Scotty" will be remembered for his heartbreaking fight against Oregon. With an injured leg that would barely support his weight Scott fought to the last. He held down an end position last year but has been shifted to tackle this season.

"FIGHTIN' SCOTTY" IS TO CAPTAIN GRID MEN

Man With Reputation of Being Coast's
Hardest End Will Play Tackle
Opposite Percy Locey

Millard L. Scott, two stripe Varsity football man who has starred at end, has been unanimously chosen captain of the 1923 team. "Scotty's" election fills the vacancy created by the resignation, last year, of "Perc" Locey, two-stripe tackle and the president of the student body.

Scotty's home is in Whittier, California, during the vacations. He is a senior in Agriculture, and president of the Senior class. He is a member of Alpha Zeta, agricultural honorary fraternity, and a member of Alpha Tau Omega.

Captain Scott has played a fast end for two years for the varsity. He showed up in his regular form in the game with Oregon two years ago on Bell field. He has been first string end ever since. During the summer he has taken on some weight, and this year will play opposite Percy Locey at tackle. He is in the 200-pound class now, and going as strong as a light-weight.

"Nobody ever made gains around Scotty's end," says Coach Rutherford.

The new captain of the Fighting Aggies was asked if he had anything to say to the student body concerning this year's hopes in football.

"We have the best outlook ever," he said, puffing out his chest, and kindling the fire of his hopes in his eyes. "Boy, we have the fastest bunch and the best prospects. We have a big year to look forward to, and the team won't disappoint anyone but our opponents."

FORMER STUDENT TO TEACH
Miss Calla Van Syckle, 1923 graduate in home economics, has accepted a position as teacher of home economics in the Springfield, Mass., high school. She succeeds another O. A. C. girl, Dorothy Edwards.

CALENDAR

Today
10:00—Beaver Knights, at "Y" hut.
1:00—English examination.—See announcements.
1:30—Beaver staff meeting at Shepard hall.
2:30—Pacific U. vs. O. A. C. football game, Bell field.
7:15—Pep rally, men's gym.
Monday
5:00—Editorial board of Barometer, Barometer office.

KAPPA THETA RHO GRANTED CHAPTER

Beta Theta Pi Recognizes One
Of Oldest Campus Locals
At Fall Convention

GROUP ORGANIZED IN 1914

National American's Largest
Social Fraternity and
One of "Big Four"

A chapter of Beta Theta Pi national social fraternity was granted to Kappa Theta Rho, local fraternity at the convention of the national body this summer. Installation will be held sometime during the first term of this year.

Beta Theta Pi, the first fraternity organized west of the Alleghenies, was founded at Miami University in 1837. The O. A. C. chapter will be the 84th to be installed.

Kappa Theta Rho was founded in 1914 under the name of the Tyee club. A charter for a local fraternity was granted in 1917 and the name of Kappa Theta Rho was assumed. The local fraternity has been working toward the goal of Beta Theta Pi since its organization.

Members of the active chapter are Paul Allen, Roderick Begg, Jack Bingham, Fred Bracher, Jack Crawford, Earl Farra, John Fisher, Dick Garber, Earl Griffin, Albert Johnson, Stanley Knox, Henry Martens, Glenn Perry, Harry Perry, Raymond Shedd, Lawrence Sharpf, David Taylor, Kenneth Urfer, and Don Conklin.

Pledges are Jack Griffith, Lowell Hughes, William Kreitzer, Edward Patterson, and Errol Kingsley.

Members of the faculty who belong to Beta Theta Pi are Frank L. Snow, professor of Industrial Journalism, Charles B. Mitchell, professor of public speaking, and Henry Hartman, assistant professor of horticulture.

STRIKE PAPERS RECEIVED

Combined issues of the New York evening papers and of the morning papers, put out on account of the pressmen's strike, have been received at the library and can be seen by students interested. They have been put in a binding and will be kept for historical reference.

Elmer Butz, former manager of the Barometer, was a campus visitor last evening.

STRONG ART DEPARTMENT GIVES PROMISE OF COLORFUL CARTOONS IN FIRST FLIGHT OF THE OLD BIRD

An advance sale of corsets will precede the first flight of the Orange Owl this fall, in accordance with the usual custom of protecting customers from the dangerous effects of reading the side splitting wheezes with which the old bird's gizzard will be crammed. Wit that might have been pilfered from the lines of the immortal Twain or Jerome, art of a decidedly collegiate cast, and jokes that Depew himself might envy will burst the bindings, cram the covers, and grace the galleys of the "Comeback Number."

October the twentieth is the tentative date on which the old bird will push open the door of his summer sanatorium and flutter out. The return of Phil Gilbert, one of the mainstays of the staff in 1921-22 promises a good fall crop of clever cartoons, and with "Hod" Lewis, Taylor Poore and "Wickie" Wickersham standing with pens in hand waiting for the elusive hunch to come, the art department will not disappoint the most exacting. Discovery of hidden talent in the work of Frances Mills, a sophomore as-

O. A. C. SECTION PLANNED
Students From U. of O. Plan to Join
Aggie Rooters at Idaho Game

Alumni of Oregon Agricultural college, together with those of other Oregon institutions in eastern Oregon, are planning an O. A. C. section at the football game between the college and the University of Idaho in Boise November 10. O. A. C. colors and music from an 18 piece band will be features. Former students of the University of Oregon, the Oregon Normal school, and other Oregon institutions are showing a fine spirit of cooperation in boosting for their state, according to those in charge. A yell leader from the University will lead the O. A. C. yells at the game.

YEARLING FOOTBALL OUTLOOK PROMISING

"SPEC" KEENE WILL COACH
FRESHMAN HUSKIES

"Wes" Schulmerick, Columbia Star,
Will Be Mainstay on First
Year Grid Lineup

With "Wes" Schulmerick, Columbia university star, as a nucleus around which to build his freshman team, and several other 200 pounders who showed unusual ability in high school, Roy "Spec" Keene has good prospects for coaching a rook machine that will be a winner. "Spec" has coached the Corvallis high school team the last two years and last year produced the all victorious Willamette valley team which was defeated only by the famous Scott high school team of Toledo, Ohio.

Keene was a prominent figure while at O. A. C. He played on the varsity baseball team for four years, being captain of the nine his third year. He was president of the student body in his senior year, being graduated in 1921. He was appointed instructor in physical education on the college staff last summer, after taking special work in the physical education department of the University of California.

Clyde W. "Cac" Hubbard, '21, who has coached the freshmen for the last three years with successful results, will assist in varsity coaching. Hubbard is thoroughly familiar with Coach R. B. Rutherford's methods, and is expected to be of material assistance in developing the varsity eleven.

Hubbard is known on the campus as an all-around athlete. He played on the varsity eleven three years, and on the varsity basketball team three years.

Whitman has entered the Pacific Coast Forensic league with the purpose of sending a representative to an extemporaneous speaking contest to be held annually at some Pacific coast college.

ROOK RECEPTION AND DANCE WILL BE HELD THIS EVENING

President Kerr Is to Deliver Welcome Address;
Freshman Advisor Beaty and Coach
Rutherford Are on Program

The first pep rally of the year will be held in the men's gymnasium at 7:15 tonight. The purpose of this rally is to provide for a freshman reception and a general student body "get together."

The program will include music, yells, speeches of welcome by W. J. Kerr,

president of the Oregon Agricultural College, E. B. Beaty, professor of mathematics and freshman advisor, Harold Scott, chairman of the honor council, and R. B. Rutherford, head football coach. Doctor Poling will lead the singing and a new feature will be the administering of the oath of allegiance for rooks administered by U. G. Dubach, professor of law.

Immediately following the rally the floor will be cleared for dancing. An entertainment will be given by the Y. M. C. A. and the Y. W. C. A. in the women's gymnasium for those who do not desire to dance.

All upper classmen and freshmen are requested to be there and it is urged that all the rooks will wear the green tags that were issued to them in the registration line. It is important that all the rooks attend and get some of the "Beaver Fight" instilled in them.

HOMECOMING TO BE NOV. 3

Annual Prodigals to See Big Game
With Washington University

Homecoming day has been set for November 3 this year, when the Aggies will meet the University of Washington Vikings on Bell field. This will be the only chance alumni will have to see a gridiron classic on the home field this season, and many are expected to take advantage of it. The annual homecoming ball, Beaver feed for all wearers, past and present, of the Orange "O," and the alumni luncheon and rally are other attractions.

Announcements are being sent to all alumni whose addresses are filed in the alumni office, concerning the game with the University of Washington on homecoming day and that with the University of Oregon at Eugene, November 24. Special sections will be reserved for alumni at both games.

MINES BUREAU PLANT REMOVED TO COLLEGE

Library and Equipment to Be Stored
Pending an Appropriation for
Continuation of Work

Transference of the plant of the Oregon state bureau of mines and geology has been made to the school of mines of the college. It will be stored to meet an emergency caused by failure of the state legislature to appropriate money to pay for maintenance of the biennium 1923-1924. The plant includes library, investigational reports, and equipment.

"It is hoped that at the next session of the legislature funds may be appropriated for the continuation of the important work of the bureau," said C. E. Newton, dean of the school of mines. "The bureau has conducted investigations of great value to the state. In compliance with the wishes of the commission of the bureau the equipment will be kept intact during the interim and so arranged that it may be of the greatest value possible in advancing the mining interests of the state."

HONORS WOMAN GRADUATE

Clara Nixon, '14, Appointed Associate
Professor of Agriculture

Clara M. Nixon, 1914 graduate from the school of agriculture, has been appointed associate professor of agriculture in the state college for women at Milledgeville, Ga. Miss Nixon, who is one of the few women teaching agriculture in colleges, was a teaching fellow in chemistry at O. A. C. for two years after her graduation, also doing research work in poultry husbandry. She has done county agent work in Delaware and has taught science in the high school in Logansport, Ind.

ALUMNI BUY NEWSPAPER

The Tillamook Herald has been purchased by A. W. McComb, O. A. C. graduate of the class of 1921 and F. T. Mellinger. The young men expect to take charge of the paper soon. Mr. McComb was editor of the O. A. C. Barometer in 1918-1919. Since his graduation he has been working on the Dayton Tribune.

NEW SIGMA KAPPA HOUSE IS ARTISTIC

SEVERAL HOUSING CHANGES
MADE DURING SUMMER

Homes Owned by Smith and Mathis
Are Turned Over to Women's
Living Organizations

Students who bound joyously up some of the old familiar sorority steps to greet shy and retiring friends of last year may be greeted by curtainless windows and cob-webbed door-knobs. Several housing changes have been made during the summer months, and one new house has been built.

The Sigma Kappa's are the proud possessors of a new English-built stucco house on 26th and Jackson. Although not entirely completed, the house will be ready for occupation within another month. In architecture and furnishing, it will be one of the most attractive sorority houses on the campus, and also one of the most unusual.

The Alpha Rho's have moved to the Smith house on Sixth and Madison. Their new home is one of the most conveniently located to be found in Corvallis, and has been refurbished for the use as a sorority house. The Gamma Iota sorority have changed their address to 10th and Van Buren, where they will occupy the house owned and built by Dr. Claude Mathis. This is another stucco house that is well adapted for use by a woman's fraternity.

The Kai Tal club is now located at 2500 Monroe St., in the house formerly owned by Mr. Buxton. This puts them in the center of Fraternity Square and they have refurbished and fitted up the house from top to bottom. The Theta Nu Phi's have also moved, their new home being at the corner of Fourth and Van Buren. No one will live in the old houses just vacated by these two living organizations.

REGISTRATION IS LIGHT

772 Men and 400 Women Enroll During
First Day of Activity

Eleven hundred and seventy-two students were registered Friday, September 28. Four hundred of these were women and 772 were men. Registration for the first day is comparatively small for this term, according to those in charge. At noon 125 women and 281 men were all that were registered but in the afternoon the work was speeded up so that the total mentioned was reached when the doors were closed at 5 o'clock.

WELCOME—CLASS OF 1927

You have arrived in a new environment—an atmosphere of democracy characteristic of the Alma Mater of your own choice. But—unless you lay aside petty pride and grasp the "hello" spirit which has predominated this campus from the time the cornerstone of the first building was laid, and unless you pledge your sole support to your varsity teams and other activities of your Alma Mater, this spirit of democracy, which has enabled the college to attain the enviable position it holds among western colleges and universities, must fail.

The Barometer is glad to have this opportunity to greet you, and welcome you into the fellowship of the O. A. C. student body. But there is one word of caution and advice the Barometer desires to impress upon you. This first year—and especially this first term—will determine in a large measure your success at the college. You can either make or break your career at this point of your education. Now is the opportunity to prove that you have the ability to achieve scholastic attainment. By the efforts you produce in the next three months will your instructors be enabled to judge your future work.

During your rook year is the time to set a scholastic record that cannot be passed up by honorary fraternities during your junior and senior years. Campus activities in the form of class offices and committee work have their place, but should not be participated in too strenuously in the freshman year. Sophomores and upperclassmen have prepared their foundation, and are better equipped to handle such activities.

May you soon acquire the "Beaver Spirit," and make the lasting acquaintance of the Beaver Knights, with whom you will probably obtain close contact.

MEET OUR NEW DEAN

Men and women alike are urged to make an early acquaintance with Mrs. Kate W. Jameson, chosen by the college administration as dean of women, after following a painstaking search of the whole country. Mrs. Jameson comes to the campus with excellent recommendations for her recent work as dean at the University of Arizona. She is well liked by all local students who have met her, and commands the respect of everyone for her pleasing personality and enviable record established at other institutions.

The Barometer believes that Dean Jameson has ample opportunity to win the hearts of all Beavers by adjusting the present cumbersome system of rules, restraining the liberties of O. A. C. women to the limit. The most objectionable rule enforced in the past was the 11:30 o'clock hour for the return of each co-ed to her abode. Surely a woman of college age is safe on the streets of Corvallis until 12 or 12:30. Other institutions on the coast allow their women such liberty. Even the university co-ed at Eugene is allowed to dance or attend the theater until the midnight hour arrives.

However, Dean Jameson has not yet expressed her viewpoint to the Barometer, and it is hoped that the announcement of her policies will see an adjustment to the past system.

THE DAILY WILL PRODUCE TRAINED JOURNALISTS

This issue of the Daily is more or less an experiment for an opening edition, but proves that each member of the staff can co-operate for such a production even before classes begin, and the staff hopes it meets with your approval. To become a member of the staff one is required to be a candidate for an entire term, and to have a term of elementary journalism to his credit. This plan is necessary to choose the best from the multitude of applicants each term.

The editorial rooms of the Daily have come to be the rendezvous for journalists

and mould a bigger and better Alma Mater.

If interested in journalistic work, drop around to the Barometer office and get acquainted. It will be worth your while to try for a position on the staff.

Well, the joyful period is drawing to a close and the period of unrest and anxiety is about to begin.

What a cinch it would be to go to school if we didn't have to "register." It would also be a blessing.

To those who have already been successful in passing through that trying ordeal, known as "registration," we offer our sincere congratulations.

To those who still have that wonderful thrill to experience, we offer our best wishes and hope that they will be successful in their attempt.

We are sure that anyone who is able to get "registered" the way they want to will never have any trouble getting by on this terrestrial terra firma.

* * * * *

* If Saint Peter makes us "register" *
* when we stagger through the Pearly *
* Gates on the last lap of our restless *
* journey our war whoop is "Long *
* live Satan." *
* * * * *

This term the engineering department will probably have a large enrollment of new students, but next term—for some unaccountable reason—the commerce department will have a great influx of new material.

The damp season will set in soon now and Oregon Outdoor Sports, such as jumping mud puddles, juggling umbrellas etc., will start.

One good thing about the eternal rain. It gives you an excuse to walk closer to the girl when you are carrying the umbrella.

ADVICE TO ROOKS

Never take off your green lids, in classrooms or otherwise, as they keep your hair combed and their color harmonizes very well with the interior decorations of the buildings.

Always walk on the grass as it is much easier walking and it will conserve your energy so that you will be able to dance more at night without getting so tired.

* * * * *

* Kid the upper classmen along. *
* They like it. *
* * * * *

Never study as that would be admitting that you did not know anything.

Never carry your rook bible as carrying it around in your pocket will wear it out.

Wear all your high school letters, emblems, etc., so that all the fraternities

will know how good you are for rushing.

When you hear someone say, "Hey, Rook!" don't think it is because you are so popular or well known.

Come late to convocation on Wednesdays to show that you are high toned and stylish.

* * * * *

ADVICE TO ROOKESSES

* Always wear your green ribbon *
* to let the upper classmen know that *
* you are a rookess and you will have *
* innumerable dates. *
* * * * *

Don't go to the library too many nights as it is a dead giveaway.

Have three or four dates a day to show how popular you are.

Use plenty of powder and paint. It attracts.

Be very demure and shy. Blush as often as possible to show that schoolgirl complexion.

Never flatter a college man. They do not like it at all.

Welcome, Students, Welcome

We trust you have had a wonderful and a happy time during your vacation. We welcome you back!

Introducing ourselves to the new students, we welcome you to our college, city, and to our store. We are known throughout this section as **THE QUALITY STORE** where prices are fair, styles are of the latest, and service of the highest.

When we say we have the choicest showing of Fall and Winter Styles ever presented in this city, you will realize in some measure what we are inviting you to come and inspect. You'll find charming suits, coats, dresses, sweaters, skirts, and fascinating millinery, as well as dainty underthings. Also corsets, brassieres, and athletic corsets, bloomers and blouses. Pendleton and Beacon blankets, all on display on the second floor.

Both old and new students should get acquainted with our enlarged men's and young men's clothing section and shoe department. In fact, every department is in a section of its own. We want you to make this store your headquarters, to meet your friends at all times. Our entire method of doing business can be summed up in one word—WELCOME!

NEW COLLEGE DEAN IS NOW ON CAMPUS

Mrs. Kate W. Jameson Will Assume Her Duties as Head of Women

Mrs. Kate W. Jameson, former dean of women at the University of Arizona the new dean of women at O. A. C. is on the campus. Miss Edith L. Livingston, acting dean of women during the last year, will be her assistant.

Mrs. Jameson is a graduate of Wesleyan university, where she received her bachelor's and master's degrees in arts. She has a doctor's degree from the University of Wisconsin. A year was spent in Germany specializing in education, psychology, and German language. Before going to the University of Arizona she was dean of women at the University of Montana, and has high recommendations from both institutions.

Made Own Opportunities

Dean Jameson's higher education was obtained through her own efforts, following the early death of her husband. While attending college she supported herself and her infant son by teaching and doing advance work for a lecture agency. Her son is now a member of

Dean Kate W. Jameson

Wants to Help Girls

"I am in the work," continued Dean Jameson, "primarily because I am eager to help girls get an education. I had quite a struggle in getting my own education, so I want especially to help the girl who is working under difficulties. What I want to do is to carry the gospel of education to every young woman."

Dean Jameson had heard much of O. A. C., its ideals and democratic spirit, before coming to Oregon, and felt that the college offered an excellent field for real service.

Had Heard of O. A. C.

"I had heard a great deal of O. A. C. for many years—about its standard of work, especially in home economics," Dean Jameson remarked. "The next thing I learned was that the whole system of organization at the institution was most attractive. I was given the idea that the institution had developed a unique system of machinery. The more I heard of it the more I was convinced that many of the problems solved in the younger schools were already solved at O. A. C."

"The work of the housing committee, for example, in addition to placing individual students in residences, involves advice in solving problems which confront fraternities, sororities, and clubs. The control of student activities is another thing that seemed to have been well worked out."

The last dean of women at O. A. C. was Miss Mary A. Rolfe, who succeeded Mrs. Mary E. Fawcett, now Mrs. Homer C. Campbell, of Portland.

SCHOLASTIC REPORT REVEALS SURPRISES

ALPHA XI DELTA LEADS ALL SORORITIES IN GRADES

Gamma Nu and Delta Upsilon Place First and Second in Standing of All Fraternities

Alpha Xi Delta, national sorority, heads all campus organizations of both men and women in the new grade reports compiled by Dean G. W. Peavy, chairman of the committee on student affairs. Gamma Nu, local fraternity, leads the men's organizations with an average of 88.11. Delta Upsilon, national fraternity, runs second with an 87.33 average.

Women in sororities have again placed themselves in advance of non-sorority women, while men in fraternities are standing nearly two per cent above men not in fraternities.

The following is the official list:

Fraternities:	
1. Gamma Nu	88.11
2. Delta Upsilon	87.33
3. Phi Sigma Kappa	87.32
4. Sigma Phi Sigma	87.21
5. Tau Delta	86.98
6. Square and Compass	86.47
7. Sigma Phi Epsilon	86.38
8. Pi Kappa Alpha	86.33
9. Gamma Sigma Kappa	86.29
10. Sigma Chi	86.18
11. Theta Epsilon	86.12
12. Alpha Pi Delta	86.09
13. Kappa Theta Rho	86.05
14. Phi Delta Theta	85.62
15. Theta Nu Phi	85.30
16. Omega Upsilon	85.21
17. Alpha Tau Omega	85.12
18. Tau Sigma Phi	85.10
19. Lambda Chi Alpha	85.09
20. Phi Gamma Delta	85.01
21. Kappa Delta Sigma	84.97
22. Sigma Nu	84.47
23. Psi Chi	84.45
24. Kappa Sigma	84.27
25. Sigma Alpha Epsilon	84.16

26. Delta Phi Sigma	84.09
27. Theta Delta Nu	83.97
28. Sigma Gamma	83.82
29. Theta Chi	83.02
30. Alpha Sigma Phi	82.69
31. Kappa Psi	82.42
32. Delta Kappa	81.18
33. Chi Alpha Pi	81.10

Sororities:	
1. Alpha Xi Delta	90.06
2. Xi Beta	89.54
3. Alpha Rho	89.00
4. Delta Zeta	88.57
5. Kappa Alpha Theta	88.54
6. Beta Kappa	88.14
7. Gamma Iota	87.98
8. Delta Delta Delta	87.73
9. Gamma Phi Beta	87.65
10. Pi Beta Phi	87.64
11. Delta Omega	87.61
12. Phi Gamma	87.59
13. Sigma Kappa	87.27
14. Alpha Chi Omega	86.84
15. Zeta Tau Alpha	86.14
16. Alpha Gamma Delta	86.04
17. Chi Omega	85.85

Men's Clubs:	
1. Rainier	86.99
2. Kai Tal	85.24
Student Body	84.61
All men	83.97
All Women	85.87
Men in fraternities	85.00
Men not in fraternities	83.04
Women in sororities	87.79
Women not in sororities	84.44

GRADUATE IS HONORED

Clarin J. Layton, graduate of O. A. C. has been promoted to the position of head of the special sales department of the Standard Oil company at Portland. Mr. Layton has been head clerk at the local office.

PLAY POLO AT VANCOUVER

An invitation has been received by the military department for the men's polo team to participate in the Pacific International Polo Tournament at Vancouver, B. C.

A chapter of Sigma Chi, national fraternity, has been granted to Tau Delta Sigma, local fraternity at Whitman.

BEAVER RIFLEMEN WIN HONORS AT SALEM MEET

Spooner and McGee, Former R. O. T. C. Men, Win Right to Shoot at Camp Perry Tournament

In the state rifle and pistol shoot, held recently at Salem, Langdon H. Spooner, Chester E. McCarty, and Leonard McGee, former R. O. T. C. men, starred with high scores in the competitive shooting.

It was generally conceded by authorities on the shooting game that the race for the individual rifle championship laid between Spooner and McGee. By their superior work in marksmanship, these

men have won places on the state rifle team. The team is now at Camp Perry in competition with teams from other states.

Trust the college student to set the pace. Michigan Aggies a year ago ceased branding calves. They run an ink-roller over the calves' noses and take nose prints. No two prints ever are alike.

LEAKY FOUNTAIN PENS

That broken and leaky fountain pen can be made like new by taking it to Lynn's Kodak Shop, 116 South Third street.

OUR LOCATION

Is the Same--Third and Madison

BUT OUR STORE

Is Different--It's Full Up

To the older students, who have attended O. A. C., and have acquainted themselves with this store,

WE WELCOME YOU AGAIN

We hope that you have had a joyful as well as a prosperous vacation, and that you have come back filled with the kind of "pep" that industrious students require.

To the new students, the same warm welcome greets you, and as you take up your studies and activities in college life, may our best wishes go with you and guide you to wealth of fame.

We want you to acquaint yourself with us and we want you to know that our support is yours just for the asking.

TO ALL; WE GREET YOU! We want you to come in, look over the many, many things students require for college wear. Stocks were never so large, nor so varied, as they are right now. And of utmost importance is QUALITY. Quality counts at this store; we positively never sacrifice the quality to induce a cheaper price.

Our lines, such as Men's Clothing, Hats, Shoes, Furnishings, Ladies' Coats, Suits, Dresses, Dry Goods, Millinery, Blankets; in fact everything in the store is backed by a guarantee of satisfactory service or your money back.

Again, we welcome you!

Regardless of the
cost of any article,
we guarantee it.

J.H.Harris
THE STORE OF SATISFIED CUSTOMERS

A trial will convince
you that this is THE
store for you.

NOTICE!

The Co-Op. will remain open until 11 o'clock on
every night of the week ending October 6, 1923

the faculty of the University of Chicago and a writer for literary magazines.

The new dean is of pleasing personality and appearance. According to indorsements by staff members at the University of Arizona she was well liked by the students there. She is credited with being the best and most successful dean of women the University of Arizona has ever had.

"Discarding petty rules for government of women and placing them on a basis of honor and responsibility for their own conduct and the management of their affairs have won Dean Jameson the respect and confidence of the women students," wrote R. B. Thompson, O. A. C. graduate now on the faculty of the Arizona institution.

Women Not Different

"She is not interested in details of styles or hairdressing which the young women may choose, so long as they avoid the extremes," observed another member. Young women are not fundamentally different from what they have always been and most of them will develop into good women as they always have done, she believes.

"Any criticism brought against young girls today should not be brought against the girls themselves but the spirit of the age," said Dean Jameson. "They are much more efficient than formerly. They are able to take care of themselves better, are generous and willing to help. I do not find them lacking in an altruistic spirit."

PROUTY TO ATTEND AMES

Charles C. Prouty, will join several other O. A. C. men at Ames, having been appointed to a teaching fellowship in bacteriology. Two 1921 graduates, Walter Bowlen and Ernest Abbott, were given research fellowships there.

Sam's for all athletic returns.

CORVALLIS, OREGON

NUMEROUS CAMPUS ALTERATIONS MADE

New Heating Plant is Largest Single Item in List of Many Improvements

A small army of men has been working on the campus this summer, where many improvement projects are under way. Besides special work on various buildings a general "clean-up, paint-up" campaign is in progress. Last year only the most imperative repairs were made, but during this summer roofs were painted, floors varnished, window sashes painted, and other necessary repairs made to put the buildings in good condition outside and inside.

The space in agricultural hall vacated by the school of commerce last spring when it moved to the new commerce building is ready for occupancy by various scientific and agricultural departments. This room, badly needed for a long time, will be used for the departments of farm crops, horticulture, soils, bacteriology, entomology, zoology and physiology, and others. The school of agriculture will be well and adequately housed for the first time.

The end of the shop building previously occupied by the print shop has been remodeled to provide lecture and drafting rooms and offices for the department of industrial arts. With this added space the department of industrial arts will be much better equipped than heretofore. Another much desired and long needed improvement is the entire remodeling of the men's locker and wash rooms and installation of hot water.

Armory Is Painted

The armory is the scene of further repairs, the entire building receiving a thorough going over. The roof has been repaired, paint applied inside and outside, a new and adequate lighting system installed in the drill hall, and additional latrine facilities put in.

The basement of the library, which had never been finished, is now completed to furnish room for library purposes and a large room for museum purposes. The college already has a great number of valuable contributions to the museum

which have not been generally known and appreciated by students and public because of lack of room for their display. Excellent facilities for the Oregon historical museum will now be available.

A temporary structure has been erected in the corner between the shop building and Apperson hall and adjoining the old heating plant, to provide storage for general building properties and garage facilities for the college trucks. The old auto mechanics building, an eyesore for a long time, has been moved from the site just between the mines building and the shops to two vacant lots east of the armory, where it will be used by the military department for motor transport trucks and similar equipment. The space left on the old site will be improved and added to the campus lawns.

Farm Buildings Added

The farm buildings have also received their share of attention. A machine shed is being built for sheltering the farm machinery, and general repair work is being done for the preservation of the buildings.

Road improvements are another project under way. All macadam campus roads have been thoroughly oiled. The Jefferson street road from the end of the pavement near the cooperative store to the Twenty-third street connection is being hard surfaced, the hard surface extending also in front of Waldo hall. The hill part of the Jefferson street road has always been very difficult to maintain because of heavy traffic. The college finances are being stretched, according to W. A. Jensen, executive secretary, to provide this improvement because it is so badly needed.

Concrete walks have been laid west of the dairy building and west of Margaret Snell hall and on several connecting paths.

One Heating Plant

The new heating plant is the largest single item in the improvement program. The college has had two main plants for a number of years—the south one by the engineering building and the north one back of the armory, one burning oil and the other wood. Separate small plants have been in use for some of the buildings such as the men's dormitory, the farm mechanics building, horticultural products building, and Margaret Snell hall. In the new project, completed by October 1, all main campus buildings are connected with this one plant. The saving in heating maintenance and greatly improved service with the completion

of the plant is expected to more than balance the considerable outlay necessary for its construction.

Hogged fuel will be burned in the new plant—lumber mill tailings and slab run through a hogger and chopped into small pieces, the largest some two or three inches in diameter. California oil has heretofore been used for the heating plants, while use of the new fuel will patronize an Oregon industry by using byproducts of lumber mills. A saving of from 20 to 25 thousand dollars per year in heating maintenance will also be effected, it is estimated. The new plant will represent the latest improvements in all technical details.

Tennis the year round will be possible on the four new concrete courts. Extra high backstops make these courts especially convenient.

O. A. C. GRADUATE HONORED

Mrs. Carrie Castle Dozier Appointed Home Ec. Dean at Utah State

Mrs. Carrie Castle Dozier of Wauson, Ohio, a graduate of O. A. C. in 1918, has been appointed professor of house hold science, and dean of the school of home economics in the Utah Agricultural college. Mrs. Dozier was formerly Carrie Castle, and was graduated as an honor student in home economics in her class. In 1919-20 Mrs. Dozier was advisor to the Kankakee County Home Improvement association. For the last year she has held the position of research assistant to the Hooper Foundation for Medical Research in San Francisco.

Battling Billy Stiff to Enter O. A. C.

* * * * * Callow Collegian to Displace "Tilly" * * * * *

A college cartoon with a kick will be a feature of the Daily Barometer this year. The adventures of Billy Stiff, an "adolescent youth" who enters college with the idea that he is big time stuff, will be told in serial comic strips daily. Advance dope gives Billy a twenty-seven league lead over the "Tasteless Tillie" of last year.

Besides being uncommonly superior as

a frosh, Billy is a cracker-jack football player, but in a practice game, he lays out the two first-string ends, and the coach takes his suit away from him. His efforts to win fame for himself and Doo-little college will bring a smile to the lips of the most ardent grouch, a titter through the teeth of the solemn co-ed, and gales of guffaws from the larnyx of the college baboon.

GENIEVE KERR IS MARRIED

Daughter of College President Weds Former O. A. C. Graduate

A wedding of unusual interest took place in the Women's club rooms when Miss Genieve Kerr, youngest daughter of President and Mrs. W. J. Kerr, was married to Mr. Ernest Edson Henry, son of Mr. and Mrs. M. D. Henry of Pullman, Washington. Guests included members of both families, intimate friends, and members of the O. A. C. faculty who were at the college when President and Mrs. Kerr first came to Corvallis.

The bride was attended by Miss Florence Berchtold as maid of honor, and Miss Elynore Sweeney and Miss Margaret Covell who are sorority sisters of the bride. Mr. Harold Henry of Kelso, Washington, brother of the groom was best man.

The McManus string quartet gave a 15 minute concert and played during the

POLI NEGRI STARS IN FILM

Absorbing Screen Drama With Clever Role Will Be Shown Here Soon

"The Cheat," an absorbing screen drama with a highly satisfactory climax and a role that presents the famous star, Pola Negri in a most delightful manner will be shown at the Majestic, Monday, Tuesday, and Wednesday.

Most of the action in this picture takes place at a Long Island society resort, where Miss Negri appears as a South American heiress who falls in love with a New York broker. They elope in Paris and coming to New York, a series of highly dramatic episodes occur in which the young wife finds herself sorely pressed for funds. As a last resort she accepts the aid of a bogus East Indian Prince who loves her madly. A happy ending brings the picture to a novel close. Nothing has been left undone in this picture—it is a veritable triumph for both star and producer.

Barometer \$3.00 a year.

PULLEY'S SHOE SHOP

The most up-to-date shoe shop
in Corvallis

118 South Third Street

Welcome to Corvallis

Students and Faculty Of the O. A. C.

This store, as an up-to-date and progressive business house, welcomes you to Corvallis. We trust that you have had a very pleasant vacation; also a profitable one. And we assure you that we will do all in our power to make your sojourn here a pleasant one; and one long to be remembered. In making our purchases for our stocks, we have ever in mind the desires and needs of the students of our wonderful O. A. C. This, we feel, has enabled us to be in a position to supply you with the most popular and up to the latest minute merchandise at the lowest price that quality and dependable merchandise can be sold.

When in need of dry goods, ready-to-wear, millinery, shoes, clothing, etc., always think of "MILLER'S" and you will be pleased. We have a group of courteous and efficient salespeople, who are always ready to serve and help you in any way you might need them. We will be pleased to have you make this your store home while here.

New Things Are Arriving Daily

Each season brings forth its new modes and this fall is no exception—but it would seem that fashion fairly outdid herself in evolving styles that would meet with favor and in doing so created some of the most exquisite apparel we have ever exhibited.

New Coats

New coats and wraps of luxurious splendor. New suits of tailored trimness. Beautiful frocks that meet the needs of every woman.

The slim richness of the new coats is to be appreciated by every devotee of fashion. A richness of fabric that is greatly enhanced by the addition of furs, braiding, and embroidery in beautiful designs. Priced from \$15.00 to \$95.00.

New Dresses

Fashion expresses herself first in dresses—perhaps because she can express herself in so many charming ways.

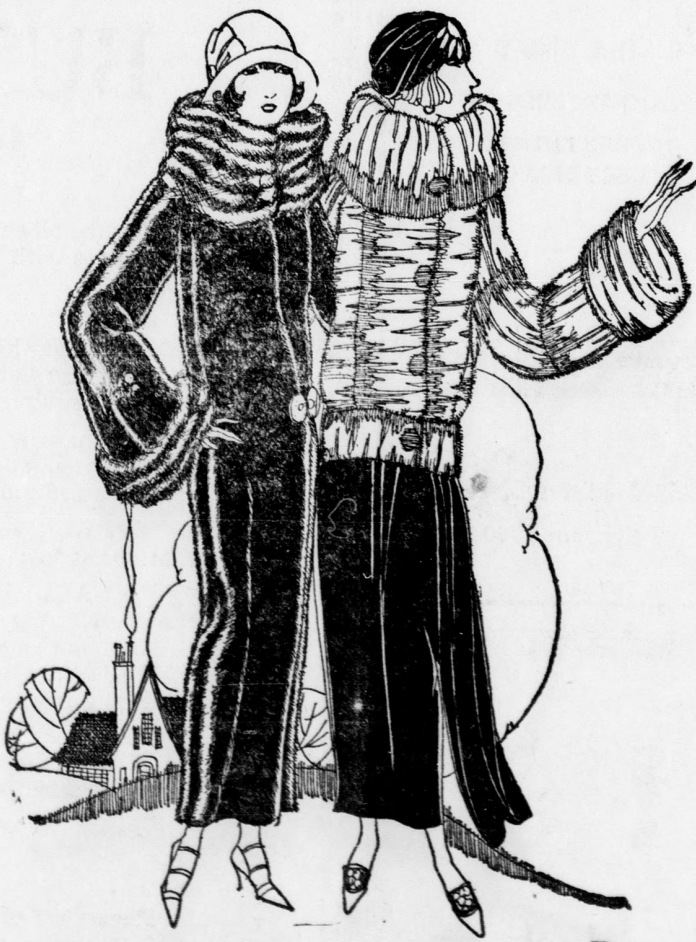

Flounces, drapes, and tiers, for instance; or in the ever becoming and increasingly smart coat models. Priced from \$15.00 to \$75.00.

The New Skirts

The new skirts are irresistible. Made of beautiful fabrics with enticing knife pleats, box pleats, or perfectly plain in the side fastening effect. Priced from \$6.95 to \$16.00.

Sweaters

Here you have hundreds of new sweaters to choose from in every style that is new in sweaterdom. All the new color combination effects, in vest style without sleeves, coat style with sleeves, and the new side tie effects. In fact, if it is new we have it. Don't fail to look them over.

MILLER'S
Good Goods.

MEN'S AND YOUNG MEN'S SUITS AND OVERCOATS

Being well dressed is merely a matter of knowing where to buy your clothes. Quality is certain in this store; also style and workmanship. Here are prices that will meet the means of the man who can afford the best, as well as the young man whose allowance is limited.

Men's suits \$15.00 to \$45.00
Men's overcoats \$9.50 to \$35.00
Men's rain coats \$4.50 up

Young Men's Furnishings

CAPS

We carry an up-to-date line of well-made caps priced from \$1.50 to \$3.00.

JUNIOR CORDS

We have these in the desired shade of corduroy in the Campus cords. Best grade at \$5.75.

NECKTIES

Everything that is new; all the new fads in neckties are to be found in this stock.

VAN HEUSEN COLLARS

A complete line of this popular and economical collar, so universally worn by the boys.

UNDERWEAR

All kinds of underwear suitable for this climate at reasonable prices. High-grade materials.

SHIRTS

Negligee or golf styles in madras, or silk; priced from \$1.45 to \$8.50.

FLANNEL SHIRTS

Flannel dress shirts in the popular shades, O. D. army, and others; from \$1.75 up to \$5.50.

BELTS

Elastic and leather belts—with initial or O.A.C. buckles—priced from 25c to \$1.50.

JOURNALISTS WILL MEET THURSDAY

Sigma Delta Chi to Give Prizes to Winners in Feature and News-Writing Contest

The first mass meeting of students interested in journalistic work on the campus will be in room 9, commerce building Thursday afternoon at 5 o'clock. All persons interested in becoming staff members of the O. A. C. Daily Barometer or other student campus publications are urged to be present as the respective editors have been invited to tell of their requirements for the school year just starting. A feature of the meeting, expected to pack room 9, will be presentation of prizes for journalistic achievement in contests conducted by the department of industrial journalism.

A loving cup and other first prizes will be presented by Lindsey Spight, president of the local chapter of Sigma Delta Chi, professional journalistic fraternity. Frank L. Snow, professor of industrial journalism, will award second and third prizes and announce the names of those students put on the "honorable mention" list at the close of the spring term and the summer session.

Eunice Rydman of Portland, sophomore in commerce, due to her achievement in the spring term, has the distinction of being the first woman to win the silver loving cup offered by Sigma Delta Chi, professional journalistic fraternity, to the best industrial news writer. George Booth, junior in civil engineering, took second honors in the loving cup contest.

Jean McClew of Eugene, junior in home economics, is credited with being the best industrial feature writer for the spring term. Her award will be a fountain pen given by Sigma Delta Chi. Chester Rehfield, junior in agriculture, will also receive a prize. Honorable mention in this contest is given Evelyn Joy, Olive Moore, and Fred Behnke, and Thomas R. Brown.

Katharine Marshall, senior in commerce, has the honor of being the best technical writer in the spring term, Beth Fariss, junior in commerce, taking second place.

Chester Rehfield placed first in a special contest for students covering news beats, Clifton Booth of Corvallis coming next. Other students given mention are George Naulty, Norma Marrs, Robert Theiring, Ruth Girton, and Kathleen Norris.

Burton Hutton, sophomore in commerce, taking elementary industrial journalism, in competition with 60 others, doing the beginning industrial journalism work, won a fountain pen, Kent Walker, sophomore in commerce com-

ing second. Those receiving honorable mention in this contest are Kenneth Hollingsworth, Bernal Dobell, Helen Jane Flinn, Hazel Philippi, Dorothy Orcutt, and Rachel Holloway.

John Kent, son of F. C. Kent, associate professor of mathematics, captured first place in a summer session contest for students registered in elementary industrial journalism. Robert E. Summers, senior in mechanical engineering, won second place. Those in the "honorable mention" list are C. B. Winne of the college football squad, Lawrence E. Ruch, senior in industrial arts, and Walter A. Barnes, here for the summer session. The students put out the Summer Session News of which Bernice Chambers, 1923 graduate in home economics, was editor and Georgia Jacobs, junior in home economics, associate editor.

DEBATE CHANCES GOOD

U. S. C. and W. S. C. Will Be Met in Triangular Contest Soon

"If last year's record is any indication of the future of forensics at O. A. C. we should make a creditable showing this year," said C. B. Mitchell, head of the department of public speaking and debate coach.

Last year the Aggie orators and debaters won six victories out of six contests. This year with Buxton and several other varsity men back, Hickock for the National Peace Oratorical Contest, and Elmer Goudy for the Old Line Oratorical contest, O. A. C. should be able to maintain her place in forensic circles, believes Prof. Mitchell.

The schedule for the coming year has been announced. It includes a men's triangular debate with Washington State college, and University of Southern California; girl's dual debates with University of California, University of Southern California and the University of Oregon.

SIPE BOTANY INSTRUCTOR

Frank P. Sipe of Iowa State college has been appointed to succeed Miss Bertha E. Thompson as instructor in botany. Miss Thompson has been on leave of absence from Michigan Agricultural college the last year. Mr. Sipe received B. S. degrees in agriculture and in education from the University of Missouri in 1916 and 1918 and a M. S. degree in botany from the Iowa State college this year. He served as research fellow in botany at Iowa State during the last school year. Mr. Sipe has had considerable teaching experience in high schools.

PROFESSOR POTTER MARRIES

The marriage of Miss Norma Olson, former instructor in expression and dramatic art, to E. L. Potter, professor of animal husbandry, took place in June at the home of the bride's parents in Port Townsend. Both professor and Mrs. Potter are known wide in the college and the Corvallis communities.

MARGARET SNELL PASSES

Margaret Snell, pioneer teacher of home economics at O. A. C. died at her home in Corvallis August 23, at the age of 78. Miss Snell began her work at the college in 1889 when she taught the first cooking and sewing courses at the college. During her 18 years at the college she laid the foundation for the present school of home economics.

Miss Mary Cusack, Portland girl who received her degree in agriculture last June, has accepted a position to teach and supervise the school paper in the Silverton high school. Horticulture was Miss Cusack's major subject in college, but she took several courses in industrial journalism and was a staff member of the O. A. C. Barometer and the Oregon Countryman.

Mrs. Gertrude McElfresh, assistant professor of English will go to New York this school year on leave of absence to take advanced work at Columbia university. Mrs. McElfresh is taking a year's rest from teaching on account of poor health.

A shipment of nearly \$500 worth of white Leghorn and barred rock breeding males will be made by the department of poultry husbandry to Thomas J. Conway, commercial poultryman of Carlyle, Ill. This is Mr. Conway's second order for birds of the famous college strains.

ELEVEN MAKE STRAIGHT 'A'

Florence Kohlhaugen Is Only Woman to Gain This Distinction

Ten men and one woman received a straight "A" average in their studies for the spring term. They made the highest possible grade in every course pursued. Only those carrying a minimum of 15 credit hours were counted in the list. The average number of credits carried by these students was 18. Miss Florence L. Kohlhaugen of Roseburg was the only "co-ed" to gain this distinction. She is a senior in home economics. Ninety-one other students made grade averages of between 93 and 96 per cent while carrying 15 or more credit hours of school work. Of these students 57 were men and 34 women.

GARMAN ON FACULTY

John C. Garman, graduated from the college in 1922, will have charge of instructional work in photography the coming school year. He has been appointed instructor in physics, succeeding Robert Uphoff, assistant professor of physics, who has resigned.

Dr. U. G. Dubach, professor of government and business law, has returned from a trip with his wife and daughter to the middle west. The Dubachs made the trip by automobile, making the loop through Yellowstone park, Kansas, Denver, Salt Lake City, and thence home. The best roads on the trip were found in Oregon and Washington, Dr. Dubach reported.

DAIRY CLUB TEAM IS ON 7000-MILE TRIP

SPECIAL CAR CHARTERED TO CARRY STOCK JUDGES

California Delegation Will Be Met at Salt Lake City and Group Will Make Other Stops

The team which will represent the college in the national dairy cattle judging contest at the national dairy show, Syracuse, N. Y., October 2 to 12, has been picked, consisting of the following men: J. C. Ostrum, Waterman, Wash.; F. M. Knox, Gaston; H. J. Olsen, Corvallis; George C. Poole, Wilwaukie; L. J. Bartholemey, Drain.

Accompanied by V. D. Chappell, associate professor of dairy manufactures, the men left Portland Wednesday morning in a special car, meeting the California delegation at Salt Lake City. They will stop at Ames, Iowa, in Washington, D. C., and in Philadelphia before going to Syracuse. Expenses will be paid by the O. A. C. dairy club to the extent of \$800, any above that sum to be met by the members of the team.

GRAVES ACCEPTS POSITION

Raymond F. Graves of Filer, Ida., who was graduated from the college last June, has accepted a position at Twin Falls, Mont., in the public service department. Graves was associate editor of the O. A. C. Daily Barometer while in college, and was connected with many other student activities. He received his degree in commerce. He is a member of Delta Upsilon social fraternity and of Sigma Delta Chi, professional journalistic fraternity.

J. P. Harvey, chemical engineering graduate of O. A. C. in 1921 has been appointed instructor in the department of chemical engineering at the college. Mr. Harvey has received a masters degree in chemistry from the Massachusetts Institute of Technology. Mrs. Harvey, formerly Ruth Boise of the class of 1922, has arrived at Corvallis from Cambridge to be with Mr. Harvey.

COUNSELOR IS APPOINTED

James H. Batcheller to Be Advisor for Honor System

James H. Batcheller, associate professor of mining engineering, will act as counselor to the honor committee of students which will be elected to carry out the provisions of the O. A. C. honor system as soon as college opens. Professor Batcheller, who has served on the faculty committee to promote honesty in academic work for several years, was appointed counselor by President W. J. Kerr in accordance with the provisions of the honor system amendment to the student body constitution, adopted last spring. The amendment establishes the honor system under exclusive student administration, but requests the president to appoint a faculty member to whom the honor committee may go for counsel.

Beaver Brevities

Harvey L. Paddock of Eugene, senior in horticulture last school year who also took work in industrial journalism, wrote the leading article in the September issue of Western Fruit, monthly magazine published in Seattle. L. Trowbridge of Portland and Walter Pierce of Mt. Remont, Wash., also majoring in horticulture with elective work in industrial journalism, are the authors of an illustrated article on strawberry planting which also appears in the same issue. Paddock's article was "Props and Braces for Fruit Trees."

Dr. Nathan Fasten, professor of zoology and physiology, has been elected vice-president of the Western Society of Naturalists, affiliated with the American Association for the Advancement of Science. Dr. Fasten has just returned from Los Angeles, where both organizations held their annual meetings September 17 to 20, and where his election took place.

Albert Absher, secretary of the school of agriculture at O. A. C., has resigned his position and will soon leave Cor-

DEAN'S OFFICE IS MOVED

The office of the dean of women has been moved from the third floor to the first floor of the library building, in room 105. Both Dean Jameson and Miss Edith Livingston, assistant to the dean, will be glad to consult with students at any time.

"I want my office to be a place where girls—and men—feel free to come for advice," said Dean Jameson. "Naturally I am interested in boys because my only child is a boy. I would not feel that my work was at all successful if I felt the girls were afraid to come to see me."

vallis for an eastern university to take graduate work in some field of science related to agriculture. Absher is an O. A. C. graduate of 1920, receiving his degree in agriculture. As secretary to Dean A. B. Cordley for the last three years he has come in contact with hun-

dreds of young men interested in the various phases of agriculture and has made many friends on the campus.

"An Epitome of Oregon History," published in the new edition of the Oregon Blue Book being distributed by Sam A. Koser, secretary of state, is contributed by Dr. John B. Horner, professor of history and director of historical research at the college. Dr. Horner, who is considered an authority on Oregon history, is the author of a textbook on the subject and many articles in newspapers and magazines.

BUILDING IMPROVED

Improvements are being made in the farm mechanics building. The office is being remodeled to make room for G. W. Kable, extension specialist in farm mechanics. A stairway, and two oil tanks with pumps will complete the installation for the present.

If you are on a social committee, the Penny Printery has something of mutual interest.

NEW MEMBERS ON COLLEGE STAFF

Department of Finance and Administration Added In Commerce

Nearly 50 staff appointments have been made at the college since last school year, virtually all of them to fill vacancies caused through resignations.

New appointments include the new dean of women, Mrs. Kate W. Jameson, who has had experience at the University of Montana and the University of Arizona. Professor J. Leo Fairbanks of Salt Lake City is the new head of the department of art and rural architecture.

Dr. Alfred C. Schmitt has been appointed head of the new department of finance and administration in the school of commerce.

The household science department also has a new head—Mrs. Jessamine Chapman Williams, formerly of the University of Arizona.

Succeeding E. B. Lemon, W. R. Robertson, public accountant from Washington, D. C., has been appointed associate professor of accounting.

Associate professorships were given T. J. Starker, forestry; W. V. Halverson, bacteriology; F. H. Thurber, organic chemistry; C. E. Schuster, horticulture; Henry Hartman, horticulture; C. L. Long, extension horticulture; R. V. Gunn, farm management demonstrator; H. E. Cosby, extension poultry; L. J. Allen assistant state leader of boys' and girls' clubs; F. H. Berns, art and architecture; E. B. Mittleman, economics and sociology; L. E. Brigham, hydraulics and irrigation engineering and Harold Cocklerline, electrical engineering.

Instructors in the various departments have been appointed as follows: Frank Sipe, M.S., Iowa State college, botany and plant pathology; J. P. Harvey, M.S., Massachusetts Institute of Technology, chemical engineering; Mrs. Elizabeth Flora, M.S., Kansas State Agricultural college, institutional management; Miss Herta Vasonoja, University of Minnesota state graduate, institutional management; J. F. Bursch, Stanford university graduate, psychology and education; John L. Osborn of the University of Nebraska faculty, zoology and physiology; D. O. Ferrell, director of physical education at the Spokane Young Men's Christian association, physical education for men; Roy S. Keene, physical director and coach at Corvallis high school and former O. A. C. athlete, physical education for men; J. H. Irvine, formerly teacher in Albany college, accounting; Earl Phelan, general chemistry; Miss Jean Vance, '23 office training; R. C. Coonrad, mechanical engineering; Miss Dorothy Burgess, graduate of Montana State college, botany and plant pathology; Fernley A. Tatum teaching fellow at University of Washington, chemistry; Miss Hazel Murray, teaching fellow at University of Nevada, chemistry; George D. Helm, who completed four years' work at O. A. C. last June, English; Claude Henderlite, University of Washington graduate, English; Miss Minnie J. Wangen, modern languages; John C. Garman, fellow in electrical engineering, O. A. C., physics.

Fellowships have been given to Percy E. Mells in forestry; Miss Amy Stifle, office training; George H. Harris, horticulture; Webster E. Beebe, pharmacy; and Miss Margaret M. Gorrie, pharmacy.

New staff members in secretarial and other office positions are the following: Miss Janie Stiles, secretary, school of agriculture; Miss Elizabeth Gerding, secretary, department of dairy husbandry; Miss Kathleen Meloy, secretary, department of animal husbandry; Miss Marguerite Appleman, secretary, school of engineering; H. N. Truedson, bookkeeper, business office; Miss Alice Buchanan, stenographer, executive secretary's office;

NATIONAL PRESIDENT OF HONORARY VISITOR

Commerce Women's Fraternity Will Entertain Head of Phi Theta Kappa on Wednesday

Miss Anna E. Hall of Denver, Colo., national vice-president of Phi Theta Kappa, honorary fraternity in commerce for women, will be a guest of the local chapter next Wednesday. Miss Lillian Burns, instructor in stenography, is national treasurer of Phi Theta Kappa.

The local officers of Phi Theta Kappa for this year are Evelyn Clark, president; Katharine Marshall, vice-president; Clara Robinson, secretary, Lilly Nordgren, treasurer; Frances Peterson, corresponding secretary; and Edith Wilkinson, custodian.

FRESHMAN WEAR BADGES

New Students Will Be Given a Chance to Get Acquainted

A small badge with the name and home town of each freshman student will be issued in registration lines Friday and Saturday, announces "Bill" North chairman of the Greater O. A. C. committee. The badges will be worn for one week.

"The plan of a badge for freshmen is one that is followed by many of the leading colleges and universities of the east. It gives the new students a chance to get acquainted among themselves, and also the upper classmen will rapidly form a speaking acquaintance with a large number of the new students," says North.

THE COLLEGE WORLD

—Charles E. Whittle, president of Ogden College in Kentucky, is but 28 years of age. The "boy president" was 13 years old before he saw a railroad, and at 19 was graduated from Yale.

—Talk about alumni loyalty, here's a case that merits attention. A member of the class of 1650 recently established a scholarship at Harvard. He was William Stoughton, who died 223 years ago and left the school some land. Irregularities in management have delayed the scholarship fund from the income until last year.

—Highland College, in Highland, Kansas, with 20 students, had the smallest enrollment in 1922.

—In the United States there are 618 Universities, colleges and professional schools. Fifty of them are in New York state, 48 in Pennsylvania, and 40 in Ohio. Texas, the largest state, has 20.

FORMER AG STUDENT GIVEN RESPONSIBLE APPOINTMENT

R. J. Werner, '17 Graduate Will Begin Work Soon as California State Supervisor of Agricultural Instruction.

R. J. "Dick" Werner, '17 graduate in agriculture, of Sacramento, California, has been appointed state supervisor of agricultural instruction of California.

Since graduation, Werner has earned his masters degree at the University of

California and will soon take an examination required, before his doctorate can be conferred.

Werner is one of the 44 percent of the Beavers, who work their entire way through college and at the same time take advantage of practically every line of student activities successfully.

According to E. T. Reed, college edi-

tor, Werner landed on the O. A. C. campus with but two dollars in his pockets and managed to make the grade, besides belonging to a fraternity and being editor of several leading college publications.

In a letter to Mr. Reed, Dick writes that he still has the "Beaver fight," and that he hopes to soon visit the campus and intends to lead a "Zip Boom Bee," if Johnny Wells don't catch him first.

GOLD RUSH AT WHITESIDE

"Salomy Jane," Engaged for Monday And Tuesday, Has Action

"Salomy Jane," a paramount picture production featuring Jacqueline Logan, George Fawcett, and Maurice Flynn, will appear at the Whiteside theater Monday and Tuesday.

The picture is based on Bret Harte's story of the gold rush days of '49. Screened in the Santa Cruz mountains, it is replete with marvelous scenes. Dramatic action and thrills abound in every scene, which leave no room for dull moments in the action.

FREE MUSIC SCHOLARSHIP OFFER

Marguerite Mac Manus
Violinist and Teacher
Director Mac Manus String Quartet

OFFERS

Two music scholarships in violin or viola playing. Either College Man or College Woman.

Fill out accompanying blank and send before October 15, to

Marguerite Mac Manus
422 North Eighth Street,
Corvallis, Oregon

Name	Age
Address	Time studied with each
Teachers:	
1	
2	
3	
Give title and composer of one (two, if short) selections you wish to play for the judges.	
.....	
.....	
The awards will be made by three judges to the students showing most promise, as indicated by age, training, and performance.	
Winners will be entitled to three months' instruction in violin or viola, one hour a week. Applicants will be notified when to appear.	

DAILY BAROMETER RECEIVES PRAISE

PRINTING TRADES JOURNAL APPROVES APPEARANCE

"Inland Printer" Gives Credit to Homer Roberts and Favors College Trained Men

In the June issue of the Inland Printer appears the reproduction of the full front page of a recent issue of the O. A. C. Daily Barometer and below it a complimentary paragraph addressed to Homer L. Roberts, editor of the paper last year, and now city editor of the Corvallis Gazette-Times.

The magazine gives much credit to Robert's work as the editor of a paper with "a mighty fine first page on every issue," and comments on the pleasing symmetry and variety of headlines which make the paper attractive to the eye.

"Speed the day when more of our publishers will be college trained. The schools of experience and hard knocks, of which we hear so much praise, are mighty slow, for, in them, the student is in the main his own instructor," says the Inland Printer.

It is in the modern school of journal-

ism, the magazine states that the students get in concentrated form the best ideas others before them have developed from the beginning of newspaper history.

WEED WINS AT STATE FAIR

Winner Attributes His Success to Training Given by A. L. Peck

Wilbur W. Weed, '21, vice-president of the Weed landscape nursery of Beaverton won the blue ribbon and first prize of \$125 with his exhibit in the floriculture section of the 1923 Oregon state fair at Salem. Mr. Weed was editor of the Oregon Countryman during his senior year in college, and was also a member of Scabbard and Blade and Tau Delta fraternity.

Hardy nursery-grown plants of evergreens and conifers with a sprinkling of perennials made up the winning exhibit. A similar exhibit by the Weed nursery took first prize last year. Mr. Weed attributes a large part of his success in the profession to the training he received under A. L. Peck, professor of landscape gardening.

BEAVER FOOTBALL SQUAD ENJOYS A TREAT IN PRE-SEASON TRAIN- ING IN FORM OF DEER HUNTING

Pre-season training for the Beavers this fall opened with a new wrinkle. For ten days, prior to the regular issuance of uniforms at the gym, the husky football men were back to nature. Deer hunting was the schedule, and any man on the squad will vouch for the assertion that the coach is a super-deerhunter.

The Aggie men did not shoot the deer things, but they hunted just the same. The coaches carried the firearms and did the shooting. The gridiron men were the hounds.

"Now after you men get strung out, and start the drive, make a lot of noise. Howl!" said the coach.

The Aggies howled. They scared all the natives to the coast, which brought different tactics thereafter. The squad

yarns. Bolly Boykin was the same clown in the camp as he is today, and his southern drollery was the first thing heard in morning and the last thing in the evening. Reg. Tousey was the official woodsman, because he had corks in his shoes and "tin pants." Lead Day brought up the rear on the hikes and in all conversations. Day and Fred Tebbis slept together, and Lead complained that his bunkie was too much of a hog on covers. Dad Butler was on hand with his frequent "don't eat too fast, son," and Cac Hubbard and Spec Keene and Coley helped Dad fish the creek.

With ice-cold plunges three times daily, the Beavers came back to the campus a clean bunch, and practice has been much easier for the vacation.

Percy P. Locey, Ex-Captain of the "Fighting Aggies"

had plenty of venison, however, and every man got to see the game in action, if he didn't get to try his marksmanship.

This warpath action included the scaling of many and divers mountains in the Alsea and Triangle lake country. On an all-day hunt the thirty members of the squad climbed and descended, jumped over and crawled under more than twenty miles of hills and more than three billion feet of timber.

An exceptionally fine camp was obtained through the courtesy of Dr. E. W. Howard, who was present the latter part of the stay and who furnished part of the venison. The outing was not all hill-climbing, by any means and interesting camp activities kept things lively. Once, while everyone was awaiting the "well" of the cook, which signified that a meal was ready, some of the hunters chased a five-point buck through the camp, and within the sight of everyone.

The evening camp fire was a source of joy to the "gang," as was ever the case in the mountains. Ray Price spun the

"Luke" Gill, Experienced Punter on Aggie Squad

This scrappy veteran has played two years with the Aggies. Lukes specialty is broken field running and punting. In the Washington game last year Gill consistently outkicked the Husky punter. His educated toe is expected to be the undoing of opposing teams this season.

HOME COMING WEEKEND ENVELOPES AVAILABLE

Greater O. A. C. Committee Desires
Students to Call for Free
Advertising Material

Envelopes advertising Homecoming week-end, November 2, 3, and 4, are now available for free distribution by the Greater O. A. C. Committee. Students may obtain these envelopes by calling at the office room at 108 Commerce building.

These envelopes feature the O. A. C. University of Washington game on Nov. 3, and have on them the football schedule of the entire season. "Bill" North, chairman of the Greater O. A. C. Committee urges everyone to call for these envelopes and to use them for all communications to advertise the week-end. More advertising in the form of wind-shield stickers will be available about the middle of next week.

In 1922 the University of California, at Berkeley, had 14,367 students, the largest enrollment of any American school. The College of the City of New York was second with 13,744; New York University third with 12,254.

Greetings of M. M. Long & Co. Glad to meet old friends as well as incoming students.

GRADUATES GET POSITIONS

Five Former Home Economics Girls
to Teach in Western Schools

Five graduates of the school of home economics have been appointed to teaching positions for the coming year. Many others have been recommended, but are awaiting final approval. Mrs. Margaret Todd, formerly of Lebanon, who has been teaching in Seattle, has been appointed home demonstration agent in connection with the University of California. Miss Ollie May Chandler, '22 graduate of Walla Walla Wash., will teach home economics in the Bridger high school at Bridger Mont. Miss Chandler has been teaching at Oakesdale the past year. Mrs. Mary Anderson Binns, formerly of Corvallis has been appointed vocational home economics instructor in Gozales, Cal. Miss Lucy Rog '21, of Toledo, will teach household arts in the Baker high school, Baker, Oregon. Miss Eileen Stephens, '23, of Portland, will teach home economics in a high school in Washington. Miss Florence Becker of Corvallis '23 graduate has been elected to teach at Gervais, Oregon.

R. V. GUNN LEAVES

R. V. Gunn, farm management specialist in the extension service, who resigned to accept the directorship of the banker-farmer department of the Wisconsin Bankers' association, has left for his new work in Madison, Wis. His wife and little daughter accompanied him.

GRADS RECEIVE POSITIONS

Arthur Combs of Cottage Grove, 1923 graduate in agriculture, has accepted a Baker, another graduate in agriculture, teaching position at Downey, Ida. C. E. will teach at Two Rivers, Wash.

ROOK COMES TO STAY

Martin J. Lizberg, rook from the Oregon City high school has purchased half interest in the Penny Printery, 1524 Jefferson street. Lizberg is registered in industrial arts, and has served his apprenticeship at the printing trade. He is a brother of Clement "Timmy" Lizberg, of Tau Sigma Phi fraternity.

"Herb" Rich, Who Holds Center Position on Squad

"Herb" is one of the fastest men in coast football and can always be found near the ball on punts. Rich is a formidable sight, with his speed and weight, when he bears down on an opposing runner. Rich made his letter at center last year and will likely hold down the same position this season.

"Mercury" Was Presented by Kraus

Figure in the Reading Room of the Library Is
One of Ancient Importance

DO YOU know how the statue of Mercury which stands near the east windows in the reading room of the library got there? Sure! you're right, it was carried there. Probably four to six husky men were required to wrestle this great bulk of bronze up the long flight of stairs, through the swinging doors, and across the spacious room to its present resting place, for it weighs in the neighborhood of half a ton.

But how did the college come into possession of it, and when, and how, and why? If you are a freshman, a sophomore, or even a junior you probably cannot answer unless your curiosity has been aroused to the point where you have already inquired into its history. Of course all the seniors know! They are wise and learn everything.

Our statue of Mercury was presented to the students of the college, May 29, 1919, by Dr. E. J. Kraus, the first dean of service departments here. It was imported from Florence, Italy, by a San Francisco art dealer, purchased by Dr. Kraus, and presented to the college because he loved the institution and its halls. This, in brief, is how Mercury got into the library.

But there are other details of interest. You may not have known, perhaps, that there was ever a Dr. E. J. Kraus on the O. A. C. faculty. Perhaps you do not know, when, where, and by whom Mercury, a masterpiece of sculptural art was conceived. Certainly if you are a senior you know all. But if you are only a freshman, a sophomore, or a junior,—well—but listen—

Dr. E. J. Kraus resigned as dean of the service departments in the summer of 1919 to accept a position at the University of Wisconsin. He had been connected with the college for ten years. At first he had been head of the research division of horticulture, from which position he rose to the deanship.

When Dr. Kraus left O. A. C. he found a statue of Mercury in San Francisco and shipped it to Mrs. Ida A. Kidder, librarian.

"Because of the feeling that sentiment has as its foundation in the artistic as well as the utilitarian, I am giving to

the students of O. A. C. a statue of Mercury, which I trust may find a place in the library. I hope that this may meet with your approval," read a letter to Mrs. Kidder.

Dr. Kraus is at the University of Wisconsin as professor of applied plant physiology.

Mercury—sometimes called flying Mercury—is the work of Giovanni Bologna, 1524 to 1608. The artist was Flemish by birth but did most of his work in Florence. The "Fountain of Bologna," and the "Statue of Cosimie I" are other works for which he is noted.

Mercury is considered the most spirited, graceful, and animated of Bologna's sculptures. The original statue is in the Museo Nazionale, at Florence. O. A. C.'s copy was made in that far distant center of art.

"Children who come in the library seem specially interested in the statue of Mercury," says Miss Lucy M. Lewis, librarian. "The fact that we are often that there are many who do not know its history."

Hence this article!

"Money is too hard to earn not to save a part of it for the 'rainy days' ahead."

O. A. C. 1923-24 Students Greeting!

It is with much pleasure that we extend a cordial welcome to all O. A. C. students, and courteously invite them to make this bank their financial home during the coming college year.

With our efficient organization and sincere desire to give the best possible personal service to our patrons, we are in a position to offer the entire student body every facility for safely and conveniently transacting their banking business, either for their regular checking accounts, or in the savings department, and are confident that the friendly interest we always take in matters connected with the welfare of the college, will make the relationship of student depositors with this institution, when once established, mutually satisfactory and helpful.

We would like all students to call and become personally acquainted with this bank and its methods with the hope that they will make it their bank.

Respectfully,

Benton County State Bank

COLLEGE STUDENT WINS CONTEST

Harold Cummins is Awarded First Prize in W. C. T. U. National Essay Contest

National recognition was again given to an O. A. C. student when Harold Cummins of Nampa, Idaho, a sophomore in mechanical engineering was awarded first prize of \$100 in the W. C. T. U. national essay contest. Mr. Cummins also won the state prize of \$50.

Word of his victory was sent to the office of the president by Mrs. G. L. Buland, president of the Portland Federation of Womens Organizations. Mrs. Buland warmly congratulated Mr. Cummins on his masterly essay on the subject, "How Can Citizens Best Co-operate with Officers in Enforcing the Prohibition Law?" She also congratulated the college, and asked that the two prizes be presented to Mr. Cummins at a regular student assembly.

SALEM HIGH EARNS BEAVER LOVING CUP

"THE CLARION," SCHOOL YEAR BOOK, PICKED AS BEST

26 Entries Make Competition Keen;
Honorable Mention Given to
Franklin and Eugene

The Salem High school annual "The Clarion" was awarded the silver loving cup presented by the Beaver annual at the college for the best high school year book in the state. The principle features of the book were the systematic plan of make up, the art work, and Malloy leather cover which is more pretentious than usual in a high school book, according to the judges. The engraving, printing, and binding bill of "The Clarion" amounted to \$2300.00 but in spite of the heavy expense \$100.00 was cleared. The editor-in-chief was a chinese boy Hem L. Lun, Russel Pratt was manager. The silver cup becomes the permanent property of the school winning it three times.

Competition was keen as there were 26 entries representing all parts of Oregon. The five honorable mentions were the Franklin High "Post," Oregon City "Hesperian," Eugene High "Eugenian," Corvallis High "Chintimini," and Roseburg High's "Umpqua."

The Dalles High "Steelhead" was commended by the judges upon the excellent quality of the printing which was done by the students themselves. The Mill City high school with a student body of 27 put out a book that compared favorably with many high school annuals supported by several times the number of students.

The points followed in deciding the winners were originality 25 per cent, makeup 25 per cent, content 25 per cent, quality of engraving 10 per cent, quality of printing 10 per cent, cover 5 per cent. The judges were Professor Frank L. Snow of the department of industrial journalism, Howard P. Lewis of Marshfield editor of the 1924 Beaver, Wayne K. Davis of Pomeroy, Wash., editor of the 1923 Beaver, Homer L. Roberts of Corvallis, editor of the Daily Barometer, and Lindsey H. Spight of Hood River, president of Sigma Delta Chi professional journalistic fraternity.

FORMER STUDENT TO TEACH

Miss Ruth Middlekauff, '20, of Corvallis, has accepted a position as teacher of clothing courses in the state teachers' college at San Jose, Cal. Miss Middlekauff received her B. S. degree in home economics at O. A. C., and her master's degree at Ames last school year.

College Band Receives New Uniforms

Former Members of Organization Attend Recent National Shrine Convention

THE college cadet band will lose some of its experienced men, but there is a number of strong players coming in that will be trained soon to fill the vacant places. H. L. Beard, director, expects the band to be as good as it was last year after it has received the same amount of training. New tailored uniforms to be furnished each band man will give the band a much better appearance. An extended trip to be taken probably during the spring vacation is proving to be an attraction to new men.

Men who played in the college cadet band under the direction of H. L. Beard, have become well-known musicians. Portland sent nine former O. A. C. band members to the recent national convention of the Shrine in Washington, D. C. This Portland Shrine band was considered by many to be one of the best of the 125 bands that paraded in the capital city. Some of the critics claimed it was the best of all.

Director Beard has had a great deal of experience in band work, having played under the leadership of noted directors. He has directed the college band continuously for 19 years with unusual success. In fact, the band is now one of the leading organizations of the college, and draws many students to the campus every year.

From the large number of freshmen that are registering this term, Mr. Beard expects to recruit many new players to fill out the sections that are losing the experienced men, keeping it the well-balanced organization that has won national fame in musical circles. Bass, baritone, alto, French horn, and cornet sections are the ones most in need of new men. A bass drummer has not yet tried out for the drum section.

The men who are reported as not coming back for the coming term are William Hicking, Donald Bogie, Charles Whittemore, Ralph Dougherty, J. C. Garman, John Whittemore, Harry Dobbs, Howard Stroud, Roy Freeburg, Delmer DeSart, Willert, Johnson, Wooduff, and Martin.

GRADUATES APPOINTED TO TEACHING POSITIONS

Several Members of '23 Class Will Begin Work in Montana and California Schools

Numerous requests for graduates to fill out of state teaching positions are being received by the appointment secretary here. Minnie Wagner, '23, of Rearden, Wash., will teach home economics at East Helena, Mont. Elmo Karlson, '23, of Mount Vernon will replace James Vestal in the manual training department at Gridley, Cal. Mr. Vestal has accepted a position in Irwin, Cal. Forrest Lance, '23, of Corvallis will teach manual training at Redding, Cal., and Bernice Rice, '22 will teach commerce in the same school. Donald L. Bogie, '23, of Puyallup, Wash., will teach in the manual training department at Tracey, Cal., and Marjorie Alexander will teach home economics at Corning, Cal.

Miss Dorothy Edwards of Corvallis, home economics graduate of the college in 1921, is now assistant to Jeannette Cramer, home economics editor of the Portland Oregonian, also an O. A. C. graduate. Miss Edwards taught home economics for two years in the day schools and evening classes for women in Springfield, Mass. She took work in industrial journalism when at O. A. C.

MATERIAL BEING GATHERED

Land Drainage to Be Revised; Book Used by Many Colleges

The first edition of "Land Drainage" by W. L. Powers and T. A. H. Teeter has been exhausted, and notice has come to Professor Powers, chief of soils at the O. A. C. Experiment station, that the publishers, John Wiley, are desirous of having additional late material added for a new and revised edition.

This treatise on value and methods of land drainage and management of drained lands is used by 25 of the 30 agricultural colleges of the country giving courses in land drainage. Several others are going to offer courses in the next year or so, among them Pennsylvania, New Jersey and Washington State college, all of which intend to use the Powers and Teeter text.

Unanimous approval is voiced by leading drainage specialists of the country including E. R. Jones, head of drainage work at the University of Wisconsin, who will collaborate in the revised edition. He says it is better than any other text on the subject. Shaw of California says it covers the ground fully in brief and forcible style. Mississippi and Wyoming, Cornell and Nevada, all sections

where drainage is an important agricultural problem, praise the text.

The book has found its way to England and met with approval there, and also to India with like result. Scores of tributes have been collected by the publishers and forwarded to Professor Powers. It is one of the agricultural engineering series edited by J. B. Davidson, one of the leading engineers of the country.

Professor Powers says he expects to collect some new data and with Professor Teeter, now at Wisconsin, revise the first edition material up to date.

The Penny Printery has some new stuff to offer you.

GRAD GETS FEDERAL JOB

Ralph V. Wright, extension specialist in farm management at the University of California and '15 O. A. C. graduate, has accepted a position as federal appraiser for the Federal Land bank in Berkeley, Cal.

Several Chinese students at Columbia took advantage of the sudden popularity of the game "Mah Jong" and earned more than college expenses by tutoring New York society people in playing the game.

Lets get the habit early—"Smear Pacific."

The Penny Printery has added to its equipment and its force.

MASK AND DAGGER GRANTED CHARTER

Installation of Local Chapter Makes Eleven National Player Groups

A chapter of the National Collegiate Players, honorary dramatic fraternity, has been granted the Mask and Dagger Dramatic club. The national organization is a coalition of the parent fraternities, Associated University Players and Pi Epsilon Delta.

Mask and Dagger was organized in 1895 when a men's and women's organization combined and received recognition by college authorities. From this small club has grown a stable organization with permanent club rooms and furnishings, a workshop for construction work, and a regular property storage room.

Mask and Dagger has as its object the encouragement and promotion of the study of drama and the training of its members for leaders of community dramatics. As part of its practical work last year, it designed and constructed stage scenery and a set of the latest stage sets as well as purchasing and making sets of stage curtains. Help has been given to various communities throughout the state concerning various dramatic problems; while trips into logging camps near Corvallis are part of the annual program of the club.

The national program of the Collegiate Players at this time consists of publishing a book of one act plays, written by members of the organization, and editing the national magazine.

Miss Elizabeth Barnes, instructor in dramatics at the college, a faculty member of Mask and Dagger, directed the plays given by the club last year. Professor C. B. Mitchell, head of the public speaking department, and Miss Alice Feike, secretary of the school of home economics, assisted Mask and Dagger in its work.

The group will be installed as Mask and Dagger of the National Collegiate Players in a few weeks. At present there are chapters at the University of Illi-

nois, University of Wisconsin, University of Minnesota, Ohio university, Northwestern university, George Washington university, University of Washington, Washington State college, Iowa state college, University of Oregon.

Active members of Mask and Dagger are as follows: Elwood Pickering, Ione Cunningham, Wesleya Bressler, Merle Bailey, Mildred Druschel, Dorothy Hubbs, Carrol Bullen, Georgia Jacobs, Kathleen Bitney, John Erickson, Marjorie Niles, Mildred Boon, George Condon, Kenneth Goodale, Frankie Holm, Willard Leihy, Lloyd Reynolds, Taylor Poore, and Richard Wynne.

ANNOUNCEMENTS

The library will be open from 7:50 a. m. to 6 p. m. and from 6:30 p. m. to 10, due to increased demand for use of the library, it is announced. It will not be closed during the noon hour.

Application for Social Events for the fall term will be made through the office of the dean of women before Monday, October 15.

1. The social schedule for all organizations for each term of the college year shall be completed within two weeks following the last registration day in each term except as hereinafter specified.

2. Fraternities, sororities, and men's clubs shall not be permitted to schedule events after the indicated period.

3. The Student Body, and the various classes shall be permitted to schedule with the social committee, social events under such policy as may be approved by the executive committee of the Student Body after the indicated period.

4. Changes in scheduled dates may be made at the discretion of the social committee.

5. Additions, other than those indicated above, may be made only by approval of the student affairs committee.

An informal tea will be held in Shepherd hall Sunday afternoon from 3 to 6 o'clock. All girls, especially new girls are invited to come and get acquainted.

Voice trials October 9, room 32 Ad. building, 7:30. All college women are eligible for membership in Madrigal club.

All students interested in the college orchestra are asked to be at the organization meeting October 3, room 34, Ad. building at 7:30.

Students interested in playing small string instruments meet in room 37A Ad. building, October 3, for organization of Mandolin club.

A meeting of all members of this year's Beaver Staff will be held at 1:30 today at Shepard Hall. It is imperative that all staff members on the campus shall be there for things of interest to all will be discussed, states the editor. Harold Robinson of the Hicks-Chaten Engraving Co., will be present to give a short talk to the members.

All students registered in English 101 must take an examination to be held at 1 o'clock. Students in commerce report to Ad. 22. Agriculture and Pharmacy students report to Library 100. Home Ec. students report to Ag hall room 329. Engineering and forestry students report to Home Ec. Bldg., room 4. All other students report to Commerce 110.

The college chorus is open to any student who can sing in time and tune. Sheet music and instruction is furnished at cost. Meet October 16, room 22 Ad. building.

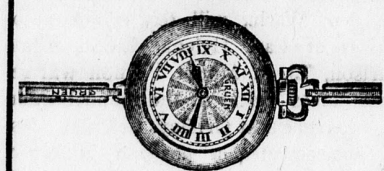

The sophomore class will meet Saturday at 5 o'clock in room 100 library to decide on the sophomore vests. All sophs bring \$2.50 as a deposit.

An informal tea will be held in Shepherd hall Sunday afternoon from 3 to 6 o'clock. All girls, especially new girls, are invited to come and get acquainted.

PROF. WILL GO TO ARIZONA

E. D. Doxsee, graduate of the college and assistant professor of agricultural education, will go to Tucson, Ariz., as head of the department of agricultural education at the University of Arizona and state supervisor of Smith Hughes agriculture.
